

## Drive Down Cost Voith X-Change Heat Exchangers

Keeping your fleet running efficiently, reliably and cost effectively is key to maintaining profitability. That's why Voith's DIWA Excellence program offers factory reconditioned heat exchangers as an affordable alternative to new units. Voith X-Change units are thoroughly cleaned, tested and restored to factory specifications, lowering repair and maintenance costs without compromising quality. Plus, for additional piece of mind, each unit is backed by a six month factory warranty.

Voith's free shipping and simple return process makes it easier and more budget friendly to keep your DIWA transmission running at optimal performance.

### **Voith X-Change Program Overview:**

---

- + State-of-the-art refurbishment technologies and procedures
- + Multi-stage cleaning and inspection
- + Pressure tested for quality control
- + All work performed by factory-trained, ASE-certified Voith technicians

Old, spent heat exchanger

Refurbished X-Change heat exchanger

When you X-Change for an equivalent model, you can be assured of a high quality product that meets Voith's strictest standards.

All heat exchangers are refurbished to factory specifications using the latest procedures and technologies. Each unit is thoroughly cleaned and run through additional processes that assure no remaining residue is left behind; then inspected and pressure tested. Only those units that pass Voith's rigorous quality control process are approved for reuse and factory warranted for six months.

Are you ready to drive down cost and improve the profitability of your fleet? Start with a smart choice: Voith X-Change heat exchangers.
